Intel CPU Cooler I200

The Xilence I200 combines all the characteristics of a modern CPU cooler for home and office use. Thanks to its quiet 92mm fan, the precision-manufactured heatsink is quietly and reliably supplied with cold air. The fan speed of 2200 RPM guarantees an ideal compromise between high airflow and low-noise operation. Furthermore, it distinguishes itself due to a safe and solid mounting by means of a backplate.

Product Features

- silent hydro bearing 100mm fan
- light aluminum heat sink for low noise development
- suitable for Intel sockets LGA 1150/1151/1155 and 1156
- including thermal paste
